20: Hunter G-4 (no date) 1897 AR7 Khasi AR7

reared either for food or as articles of trade. A pair of ploughing oxen are worth about Rs. 32, or £3, 4s.; an ordinary cow, Rs. 12, or £1, 4s.; a score of kids six months old, Rs. 16, or £1, 12s.; and a score of full-grown pigs, from Rs. 100 to Rs. 160, or from £10 to £16.

THE AGRICULTURAL IMPLEMENTS in use in the District consist of a plough, called *ka-jing-lúr* in Khásí, and a hoe or *kodáli*, called *u-mo-khiáw*. When the cultivation is carried on by means of oxen, the plough is used, the hoe alone being used when the land is cultivated by manual labour. In the Khási Hills the use of the plough, except in a few rare cases, is entirely unknown; but in the Jáintiá Hills, oxen and ploughs are used to a greater extent. What is technically termed 'a plough' of land is equivalent to four English acres; a pair of oxen, together with the necessary implements, would represent a capital of about Rs. 40, or £4.

WAGES.—The Deputy-Commissioner reports that the price of labour in the District has more than doubled in the last ten years. The rates obtaining at present are from eightpence to one shilling a day for an ordinary labourer, and from one shilling to eighteenpence a day for a porter. An agricultural day-labourer earns sixpence, and a woman at the same work fourpence-halfpenny a day. Bricklayers, carpenters, and blacksmiths earn from a shilling to eighteenpence a day. The new Station of Shillong, the present seat of the Local Government, was established in May 1864, and since that date the demand for labour has markedly increased. The extension of the cultivation of potatoes has also had an appreciable effect on the price of labour.

PRICES OF FOOD GRAINS.—Of the different descriptions of rice in the markets of the District, the better sorts are imported from the neighbouring Districts of Sylhet and Kámrúp. The local produce is considered fit only for the use of the Khásiás. The price of the better descriptions depends entirely upon the distance from which the supplies come. In a distant market like that of Shillong, rice of the best quality generally sells at from 6 to 7 *sers* for the rupee, or from 16s. to 18s. 8d. per cwt.; and rice of inferior quality, which is only used by the poorer classes, at from 9 to 10 *sers* for the rupee, or from 11s. 2d. to 12s. 5d. per cwt. Little or no trade is carried on in unhusked grain. Paddy produced in the District generally sells at an average of from 15 to 16 *sers* per rupee, or from 7s. to 7s. 6d. per cwt. Indian corn, which is only grown to a small extent, is sold
